PROFESSIONAL SUMMARY

Full-stack Developer with 2+ years of experience building scalable web and desktop applications using React.js, Node.js, TypeScript, and MongoDB. Proven expertise in REST APIs, performance optimization, production debugging, and AI-powered applications, delivering reliable, high-performance solutions across diverse platforms.

PROFESSIONAL EXPERIENCE

Kadel Labs

Udaipur

Trainee Software Engineer

November 2025 - August 2026

- Implemented React.js and Electron features for file management, playback, monitoring, and 360° viewing.
- Resolved 25+ UI, performance, and functionality defects across viewers, workflows, recordings, and streaming.
- Created reusable components, integrated REST APIs, tested features, reviewed code, and collaborated with Git.

Acolyte Technologies

Jaipur

MERN Intern

April 2025 - August 2025

- Delivered MERN Sales Lead Dashboard tracking 200+ leads, 100+ daily logins, and 40+ non-logins.
- Improved backend, Architected middleware, reducing crashes 27% and improving performance 25%.

In Time Tec

Jaipur

Junior Software Engineer

August 2024 - November 2024

- Designed a TypeScript-based to-do app using React/Redux; boosted UI responsiveness by 35% and code scalability.
- Developed mobile-first Recipe Explorer in React Native; Optimized load time by 30% with local storage integration.
- Created 12+ reusable components to reduce code duplication and enhance mobile/web performance innovation.

Codextra Protech Pvt Ltd

Jaipur

Trainee Engineer

April 2023 - September 2023

- Automated scalable backends for 2+ e-commerce and health apps; Streamlined MySQL queries for 40% faster access.
- Released store locator using Leaflet.js, cutting user search time by 30% across devices with team collaboration.
- Enhanced database queries using indexed fields and data visualization, improving data fetch speed by 50%.

PROJECTS

ProductStudio (AI Website Builder) — Next.js, React, Node.js, PostgreSQL (Prisma ORM), Turborepo

[GITHUB](#)

- Architected a visual website builder featuring an infinite canvas with Figma-like zoom/pan, drag-and-drop component positioning, and seamless Desktop/Tablet/Mobile breakpoint editing.
- Automated AI-assisted website generation (Google GenAI), project/template management, system-wide theming, and an improved SPA-like navigation experience using Zustand.

WalkInTown (O2O Marketplace Platform) — Next.js, React, Tailwind CSS

[GITHUB](#) | [Link](#)

- Integrated an O2O vendor marketplace with configurable store profiles, image galleries, and advanced search filters.
- Engineered multi-tenant dashboards utilizing advanced form validation for seamless inventory management.

ChatMaster (RAG Document Assistant) — React, Vite, FastAPI, FAISS, Mistral AI

[GITHUB](#) | [Link](#)

- Built a production RAG chatbot with document uploads, FAISS indexing, Mistral AI Q&A, and source citations.
- Deployed full-stack app on Vercel/Render with API fallback, retry logic, and reliable text extraction.

ACHIEVEMENTS

- Technovation 2021 (2nd Place):** Awarded 2nd Place in January 2022 competition.
- Research Publication:** Published research paper on image recognition utilizing a Google Lens clone.
- Google Cloud Ready Facilitator Program:** Achieved 3 Milestones (July 2021).
- Qwiklabs Certifications:** Completed 12 skill badges & 24 hands-on quests.

TECHNICAL SKILLS

- Languages:** JavaScript (ES6+), TypeScript, C++, Python, SQL
- Frontend:** React.js, React Native, Next.js, Redux, HTML5, CSS3, Tailwind CSS, Material UI
- Backend:** Node.js, Express.js, FastAPI, REST APIs
- Database:** MongoDB, MySQL, PostgreSQL
- Tools & Technologies:** Git, GitHub, Electron, Prisma, JWT, Postman, FAISS, Hugging Face, Mistral AI, Vercel, Render

EDUCATION

Poornima College of Engineering

August 2019 - July 2023

B.Tech, Computer Science & Engineering

7.38 CGPA

Kalpavriksha Program

March 2023 - July 2024

DSA, OS, Flutter, and Python in 2 real-world engineering projects.

A+ Grade
